

ECHO Rectangular table

Designer: Giuseppe Viganò

Year: 2024

**DESCRIPTION**

The Echo table is characterized by a solid base that recalls the twisting of a cylinder in the process of being formed. This table hosts a barrel-shaped top, also with rounded lines, which reveals particular attention to detail: a portion of the wooden base is covered in leather, while the rest of the table is made of walnut wood, with the possibility of opting for a marble top.

The company reserves the right to make changes to the models without notice. The information given here is based on the latest data published on the price list.
